EDUCATION

Universidad ORT Uruguay | Montevideo, Uruguay
Bachelor in Systems | 2019 – Expected July 2026

UTU | Montevideo, Uruguay
Technical High School in Computer Science | 2015 - 2018

EXPERIENCE

Kinamic Technologies | Montevideo, Uruguay *Full Stack Developer* | Jun. 2022 – Nov. 2024

- Developed and maintained a mission-critical comprehensive web platform for the Fintech industry, using Angular for the frontend and .NET Core for the backend.
- Designed, orchestrated, and managed cloud infrastructure using AWS services, ensuring high availability, scalability, and application security.
- Led the identification, debugging, and resolution of critical software bugs, achieving a significant improvement in system stability and overall user experience.
- Collaborated within a multidisciplinary agile team to design and implement new features, ensuring the continuous delivery of value within established deadlines.

Tata Consultancy Services (TCS) | Montevideo, Uruguay *Junior Trainee* | Jun. 2021 – Oct. 2021

- Collaborated in a globally distributed development team, applying effective communication skills to optimize intercultural workflows.
- Implemented development and continuous deployment best practices after completing intensive training in DevOps culture and frameworks.
- Gained hands-on experience in Retail business logic while operating under agile methodologies.

PROJECTS

Guard-IA (Thesis Project) | *AI, Deep Learning, Cybersecurity* | 2025 – Present

- Developed an advanced email security application by integrating Deep Learning models for proactive threat detection.
- Leveraged AI-driven solutions to protect sensitive information against modern vulnerabilities.

B2B SaaS Platform (Occupational Health) | *.NET 8, Angular, PostgreSQL* | Jan. 2026 – Present

- Designed and developed a comprehensive modular, multi-tenant web platform for occupational health services management.
- Implemented the architecture from scratch, ensuring high performance and secure data segmentation for multiple clients.

TECHNICAL SKILLS

- **Languages:** C#, Java, Go, JavaScript, TypeScript, HTML/CSS, SQL
- **Frameworks:** .NET Core, .NET 8, Angular, Java Spring
- **AI & Deep Learning:** Model Integration, Pattern Recognition, AI Security.
- **Developer Tools:** AWS, Azure DevOps, Git/GitHub.
- **Databases & Others:** PostgreSQL, MongoDB, Agile/Scrum, CI/CD

LANGUAGES

- **Spanish:** Native
- **English:** B2 Upper-Intermediate (Active conversational training at TalkTalk Academy).
